

KAYSON'S STORY

Kayson's journey with Kawasaki Disease began with what seemed like common baby ailments—red eyes, a persistent rash, and unexplained fevers—each time dismissed as “normal.” Over the course of weeks, his symptoms worsened, and despite multiple doctor visits and five misdiagnoses, no one saw the real danger unfolding.

It wasn't until his little hand turned blue that the urgency became clear. After countless tests, sleepless nights, and overwhelming fear, we finally had an answer—Kawasaki Disease with a giant coronary artery aneurysm.

The road to recovery included seven days in the PICU, IV treatments, blood thinners, and a team of incredible doctors who saved his life.

Today, Kayson is thriving, but our fight for awareness isn't over.

Trust your instincts, advocate for your child, and never settle for “this is normal.” Kawasaki Disease is rare but real, and early diagnosis can change everything.

#KawasakiWarrior

WHY WE SPONSOR

Winston Churchill once said, “We make a living by what we get, but we make a life by what we give.” Delta Disaster Services of Northern Colorado helps sponsor the Kickin' Kawasaki 5K because we believe in giving back to the very community which supports our business, the livelihoods of our staff and to help raise awareness for Kawasaki Disease.

*Delta Disaster Services of
Northern Colorado*

The number one reason I sponsor is because I firmly believe in supporting the people that support me and my business.

You do that and I am grateful!! Second, my nephew was diagnosed with Kawasaki Disease when he was a baby. We know that we were just fortunate that his was diagnosed sooner and is blessed to have had no lingering problems.
